

# Our Coronavirus Response

At Performance by Design, we understand the world is dealing with COVID-19. Things are changing quickly, and industries are having to adapt to these changes. Many of your veteran's are going to remote classrooms requiring computers to be in the home for class. Performance by Design is here to provide these resources for your veteran through our direct shipment.

As a Vocational Rehabilitation Counselor, you can still purchase a computer and accessories for your veteran. Our Technician will configure the computer for your veteran and ship it directly to their home address. Laptops come with webcams built-in and desktop purchases will include a web camera for your veteran to attend their virtual classrooms. We can also provide a USB/wireless headset for purchase if needed for your veteran. Any other hardware/software your veteran might need can be requested for purchase.

As veteran's are now making changes to online classrooms, Performance by Design is here to get the equipment to you need. We are all in this together and here to help your veteran continue their education. If you are interested in our products/services for your veteran, please call (866) 757-1221, Ext 1.

Lastly, we have now partnered with MLCC Computer Training and accept IPSS/Tungsten orders. See our website [www.performbydesign.com](http://www.performbydesign.com) for details.
