

Summer School? No Problem!

With the Spring semester coming to an end, some of your veterans will take the summer off for a break or vacation. You will also have veterans that want to continue their education during the summer period. At Performance by Design we are here to get your veteran to computer hardware software that they will need!

Some of your veterans will be returning to their campuses for the summer while others will continue their education through distance learning depending on your state's COVID-19 protocols. Regardless of the situation, Performance by Design will get your veteran prepared for both. Rather than be a laptop including a webcam to attend their classes online or software needed for their summer courses.

We understand that some of your veterans will want to continue to pursue their education or professional development regardless of the circumstances. Performance by Design is here to keep your veteran on track with their program to succeed! If you are interested in our products/services for your veteran, please call (866) 757-1221.

Lastly, we have now partnered with MLCC Computer Training and accept POs and Purchase Cards. See our website www.performbydesign.com for details.
